

STRENUUS[®]
WIN THE BUSINESS
YOU DESERVE TO WIN

Disruption

The next-generation standard for your disruption analysis needs.

Disruption analysis serves an important need for employers in understanding the true benefits of your network and its ability to meet the demands of employees. Too often, though, the combination of bad data and inadequate tools keeps you out of the finalists meeting. Disruption360 can help you find your seat at the table to win the business you deserve to win.

Disruption360 can help you get to “yes”:

- Am I using the best possible matching available in the industry today?
- Can I easily document data quality issues that could lead to lower matches?
- Have I verified the data against the incumbent's own directory?
- Can I use disruption to highlight my strengths instead of underscoring my weaknesses?

Disruption360 is a fully-automated, hands-off solution for all your network disruption needs.

Take your disruption analysis to the next level.

- Centralized, structured matching criteria make it simple to accurately collaborate on all your disruption projects.
- Unified reporting, including our exclusive data-quality scorecard, keeps everyone informed on project status and results.
- Manual review capabilities provide quick validation of questionable provider records.
- Unlimited licensing gives you unlimited users and unlimited data uploads to meet enterprise-wide disruption needs.
- Personalized reports with your logo and your client's logos add competitive edge.
- On-demand downloads and presentation-ready reports ensure timeliness and professionalism.
