

The next-generation standard for your disruption analysis needs.

**STRENUUS®**  
WIN THE BUSINESS  
YOU DESERVE TO WIN

**TrueDisruption** extends our proven approach to give you a true measurement of disruption. Evaluate competitors' networks as well as your own.

YOUR FULL-SERVICE ANALYSIS SUITE

## With Strenuus, your Disruption Analysis projects are simplified and consistent.

- > The most accurate matching algorithm available. Match individual providers instead of just provider locations.
- > Validate disruption data to flag invalid or non-par provider records.
- > Suppress non-relevant specialty records to identify only the ones you want to match to.
- > Show your network strength by including your competitors' networks in the disruption – instantly!
- > Comprehensive analysis, including an exclusive benchmark report. Offers a professional, repeatable and reliable deliverable for your business needs.

## TrueDisruption™

*More than just static disruption data...TrueDisruption generates a full complement of network comparison reports that show a complete picture of each potential network change.*

Unlimited users access a hosted, internet-based service.

Built to efficiently address next-generation disruption analysis issues.

Integrated with **Network360** – used by dozens of managed care companies nationwide.
